

**AWMA 2012 Pre Conference Workshop**  
**Wound Management: More than meets the eye**  
 Sunday 18 March 2012

Room	Parkside 110 A Workshop	Parkside 110 B Workshop	Parkside G04
<b>Morning Plenary Session</b>			
0800 - 0815	<b>Dr Bill McGuinness (AWMA President)</b> Welcome and overview		
0815 - 1015	<b>A/Prof Keryn Carville</b> 'The Person: Optimising wellbeing in people living with a wound' launch of International Consensus document <b>Dr John Macdonald (USA)</b> 'The Region': Skin related issues/complications related to oedema and lymphoedema <b>Dr Randall Wolcott (USA)</b> 'The Wound': Debridement and it's role in biofilm based wound care (BBWC) <b>Dr Zena Moore (Ireland)</b> 'The Big Picture': Implementation of guidelines and changing practice - an international challenge		
1015 - 1045	<b>Morning Tea</b>		
	<b>Practicum Session 1</b>	<b>Practicum Session 2</b>	<b>Practicum Session 3</b>
1045 - 1245	Lymphoedema: assessment and management <b>Leader: Maree O'Connor</b> (Physiotherapist) <b>Jan Rice</b> (CNC)	Nutritional management of adults with pressure injuries: Practical application of evidence based guidelines <b>Leader: Lilliana Barone</b> (Dietician) <b>Beryl Dawson</b> (Dietician) <b>Kendall Peters</b> (Dietician)	The High Risk Foot: It sees you everyday but do you see it? <b>Leader: Terry Swanson</b> (Nurse Practitioner -Wound Management) <b>Erin O'Brien</b> (Podiatrist) <b>Nikki Fresco</b> (Podiatrist) <b>Gill Butcher</b> (Podiatrist)
1245 - 1345	<b>Lunch</b>		
	<b>Group 1</b>	<b>Group 2</b>	
1345 - 1515	Case Scenarios Evidence/standards and guidelines for practice/importance of IDT approach <b>Leader: Dr Dianne Smith</b> (General Practitioner/Woundologist) <b>Kerrie Coleman</b> (Nurse Practitioner - Wound Management) <b>Craig Roberts</b> (Clinical Nurse, Community) <b>Donna Hickling</b> (Dietician) <b>Robyn Scheer</b> (Occupational Therapist) <b>Hildegard Reul Hirche</b> (Physiotherapist)	Expert Consensus Debridement: National Education and competency proposal <b>Leader: A Prof Keryn Carville</b>	
1500 - 1530	<b>Afternoon Tea</b>		
1530 - 1630	Summaries, panel questions and where to from here? Close		
1700 - 1800	<b>Welcome Drinks</b>		
1815 - 2015	<b>AGM – the International Wound Infection Institute</b>		

## AWMA 2012 Detailed Program Monday 19 March 2012

Room	Parkside Auditorium (Plenary / Breakout 1) 980 PAX theatre	Parkside 110 A theatre Breakout 2 244 PAX	Parkside 110 B Breakout 3 244 PAX theatre
0745 - 0830	Opening Ceremony Opening Address <b>Dr John Macdonald</b>		
0830 - 1030	<b>Plenary Session 1</b> <b>Acute and Chronic wound infection: Counting the cost</b> Chair: Terry Swanson		
	<b>Prof David Leaper</b> Local and systemic warming: Its role in the prevention of surgical site infection <b>Dr Ross Bradbury</b> Multi resistant organisms and antibiotic stewardship: A call to action <b>Dr Randall Wolcott</b> Biofilms in acute and chronic wounds: a paradigm shift in the way we consider infection		
1030 - 1100	<b>MORNING TEA</b>		
	<b>Break out 1</b> <b>Wound Therapeutics: Today and into the Future</b> Chairs: Allison Cowin & David Belford	<b>Break out 2</b> <b>Adapting practice to diverse challenges</b> Chair: Kerri Coleman	<b>Break out 3</b> <b>Partnerships and Teams: Making the connections work</b> Chair: Donna Angel
1100 - 1115	<b>Hans Wohlmuth</b> Searching for wound healing compounds from Australian plants	<b>Gillian Shaw</b> A brief intervention for lifestyle related risk factors in wound management	<b>Kylie Elder &amp; Lisa Hewitt</b> Connected wound care: Partnerships informing wound care
1115 - 1130	<b>Kate Maguire</b> The use of autologous platelet gel in the treatment of 'wounds that wont heal'	<b>Margaret Edmondson</b> Pilonidal sinus: Does prophylactic silver dressings reduce healing time in sacrococcygeal wounds?	<b>Liz Perry</b> Putting lower limb wounds on the fast track to healing: an innovative approach to team work across agencies
1130 - 1145	<b>Serena Marshall</b> Stabilised responsive nanocapsules in the treatment of paediatric burns	<b>Linda Hutchinson</b> Pedestrian vs Truck: Pedestrian Won	<b>Lisa Hewitt</b> Strengthening wound management across the Loddon Mallee: Introducing the WREN network
1145 - 1200	<b>Kai Masur</b> Impact of cold atmospheric pressure plasma on human skin and immune cells	<b>Kay Maddison</b> Principles of Hand Dressing Paradigm	<b>Terri Antonio &amp; Marianne Crowe</b> Ballarat Health Services Improves Wound Outcomes
1200 - 1215	<b>Tina Czech</b> The effectiveness of biomodulating low intensity laser therapy (LILT) to reduce mature burn scarring	<b>Margi Moncrieff</b> Use of a negative pressure incision management device (Prevena) for women at risk of surgical site complications, following caesarean section	<b>Meagan Shannon</b> Streamlining Negative Pressure Wound Therapy
1215 - 1230	<b>Robert Smith</b> The science of Keratin protein, a new paradigm in wound healing	<b>Matthew Dutton</b> Well wound healing: Preventing laparotomy breakdown	<b>Alicia Ball</b> An interdisciplinary approach to the introduction of new technology to acute and community services: Low Frequency Ultrasonic Debridement
1230 - 1330	<b>LUNCH</b>		
	<b>Plenary Session 2</b> <b>Preclinical &amp; Clinical Wound Research: Development of new tools and products</b> Chair: TBC		
1330 - 1530	<b>Prof Allison Cowin</b> Development of new antibody therapies for treating wounds <b>A Prof Mike Bennett</b> Hyperbaric oxygen therapy (HBOT) for the treatment of acute and chronic wounds <b>Prof Roy Kimble</b> Teleconferencing in paediatric burns: A tool that meets unique clinical and geographic needs <b>Dr Kate Miller</b> Development of distraction tools to address procedural pain in paediatric burns patients		
1530 - 1600	<b>AFTERNOON TEA</b>		
	<b>Break out 1</b> <b>Diabetic Related Wounds: Innovative approaches to management</b> Chair: Laurie Foley	<b>Break out 2</b> <b>Debridement: Wound bed preparation in action</b> Chairs: Anne Purcell & Gillian Butcher	<b>Break out 3</b> <b>Complex wounds &amp; Issues: The unusual and overlooked</b> Chair: Pam Morey
1600 - 1615	<b>Pete Lazzarini</b> Is stimulation training effective in increasing podiatrists knowledge and confidence on foot ulcer management? A pilot study	<b>Frances McNulty</b> Is a specialist debridement clinic 'cutting edge'?	<b>Andrea Minnis</b> Wound nurses: Saving lives?
1615 - 1630	<b>Georgina Frank</b> Are we doing better under pressure? An audit of post surgical wounds managed with negative pressure wound therapy	<b>Nelly Foley</b> Review of new technology - Low frequency ultrasonic debridement in wound bed preparation for split skin grafts	<b>Marg Ryan</b> Bairnsdale ulcer which wound dressing. Does it matter?
1630 - 1645	<b>Martin Hodgson</b> Hyperbaric oxygen therapy and diabetic problem wounds	<b>Lucia Michailidis</b> Low frequency debridement - a clinical experience	<b>Rebecca Iseli</b> Gout and chronic wounds: Case studies and literature review
1645 - 1700	<b>Harikrishna K.Ragavan Nair</b> Experience of utilising polymeric matrix dressing to reduce the signs of biofilm and episodes of regression in recalcitrant foot wounds in a Specialist Diabetic Foot Clinic in Malaysia	<b>Louise Webber</b> Managing bio-burden and devitalised tissue: an early intervention using WoundAid	<b>Tracy Nowicki</b> Bariatrics: Changing the mindset
1730 - 1830		<b>AWMA AGM</b>	
1830 - 2000			<b>Editorial Board Meeting</b>

## AWMA 2012 Detailed Program Wednesday 21 March 2012

Room	Parkside Auditorium (Plenary / Breakout 1) 980 PAX theatre	Parkside 110 A theatre Breakout 2 244 PAX	Parkside 110 B Breakout 3 244 PAX theatre	201, 202, 203, Bayside level 2
0700 - 0830				<b>Breakfast Session 1</b> Smith & Nephew <b>Breakfast Session 2</b> 3M <b>Breakfast Session 3</b> ARJOHUNTLEIGH
	<b>Plenary Session 5</b> <b>Lower limb oedema / lymphoedema:</b> <b>A formidable foe</b> Chair: Jan Rice			
0830 - 1030	<b>Prof Donald MacLellan</b> Lower limb oedema: what's the big deal? <b>Prof Neil Piller</b> Lymphoedema: What where when why and how? <b>Dr John MacDonald</b> Lymphoedema: A Global Concern			
1030 - 1100	<b>MORNING TEA</b>			
	<b>Break out 1</b> <b>Venous Leg Ulcers (2):</b> <b>Interventions in prevention and management</b> Chair: Judith Barker & Helen Edwards	<b>Break out 2</b> <b>Integument integrity issues: Innovations in practice</b> Chair: Judith Manning & Tabatha Rando	<b>Break out 3</b> <b>Specialist wound management services: Home &amp; Away</b> Chair: Margo Asimus & Michelle Gibb	
1100 - 1115	<b>Suzanne Kapp</b> Funding for compression bandaging and footwear: Impact on compression use, healing and quality of life	<b>Kerlyn Carville</b> Effectiveness 2x daily skin moisturising regimen compared to usual skin care interventions for reducing skin tear incidence and severity	<b>Charne Miller</b> Evaluation of the Silhouette Mobile Wound Imaging and Measurement System	
1115 - 1130	<b>Sue Templeton</b> Using a high stiffness compression system to enhance patient acceptance and outcomes: A case study	<b>Nelly Newall</b> The skin tear risk assessment and prevention project	<b>Marianne Cullen</b> The tyranny of distance: e wound management and research - implementation and results	
1130 - 1145	<b>Kathleen Finlayson</b> Which factors influence long term adherence to self management activities to prevent recurrence VLU's	<b>Liz Milner</b> A case study series using Keratin based dressings for skin tears	<b>Beth Sperring</b> Telehealth, photography & wound care. Managing traumatic & surgical wounds utilising telecommunication technologies, across distances	
1145 - 1200	<b>Charne Miller</b> Client experiences of self management following venous leg ulcer healing	<b>Peter Campbell</b> A new methodology for managing Grade IIA and Grade IIB skin tears in the elderly: a multicentre trial	<b>Ross Driver &amp; Polly Wilson</b> A tropical wound clinic and its impact on a remote aboriginal community	
1200 - 1215	<b>Suzanne Kapp</b> Preventing venous leg ulcer recurrence: Results of a compression stocking RCT	<b>Louise Stevens</b> The National Epidermolysis Bullosa Dressing Scheme	<b>Matthew Dutton</b> The current state of knowledge into role context and impact of the wound care nurse (however so named)	
1215 - 1230	<b>Robert Skerman</b> Achieving independence in the application and removal of compression hosiery: An innovative new device	<b>Clarissa Young</b> Patients have hands too	<b>Theresa Swanson</b> Nurse Practitioners in Wound Management: Where are we now?	
1230 - 1330	<b>Lunch BREAK and Poster Presentations</b>			
	<b>Plenary Session 6</b> <b>Enabling through Innovation</b> Chair: William McGuinness			
1330 - 1530	<b>A Prof Kerry Reid-Searl</b> Effective Patient Education: Getting the message and the delivery 'right' <b>Prof Nick Santamaria</b> Telecommunications and Wound Management: Today and In the Future <b>A Prof Keryln Carville</b> A state based centre for wound management: What have we learned?			
1530 - 1600	<b>Afternoon Tea break</b>			
	<b>Plenary Session 7</b> <b>Closing Ceremony</b> Chair: William McGuinness			
1600 - 1730	Panel Discussion: Taking the crystal ball to wound care: Wound management in 2020 <b>Prof Allison Cowin, Prof John MacDonald,</b> <b>Prof Nick Santamaria, Prof Michael Woodward</b> The Next AWMA Conference Promotion <b>Closing Remarks</b>
